

HOSTED BY CRRC

Outdoor Heat Illness Prevention WEBINAR

TUESDAY, JUNE 12, 2018 | 1:30 - 2:30 PM

A technical webinar to review the expectations of the outdoor heat illness prevention regulations and how they pertain to the work of the waste and recycling industry. We are expecting and already experiencing periods of high heat and you need to abide by the law to protect both employees and yourselves. Outdoor Heat Illness Prevention amendments went into effect in May 2015. [California Code of Regulations, Title 8, Section 3395](#).

Topics Include:

- The four steps to prevent heat illness: Planning, Training, Water and Shade
- Additional precautions the employer must take when outdoor heat is at or above 95° Fahrenheit
- Available outreach and educational training material

Presenter:

David Hornung, Cal/OSHA Heat Program Coordinator

*Facilitated by CRRC Regulatory Staff
Veronica Pardo and Kathy Lynch*

Two ways to register

1. Register online at www.crrcnorth.org. From the Home Page, select the Calendar tab, then select General Membership, and locate the RSVP link for the Heat Illness Webinar. Fill out the RSVP form and follow instructions for submittal.

- OR -
